

ALL-KAZAKHSTAN INTERNATIONAL EDUCATION FAIR

27 Jan 2019 - 02 Feb 2019

Information

58 institutions from 16 countries participated in the AKIEF last year and more than 3800 visitors attended our fairs in four cities of Kazakhstan. Speedy economic and social development of Kazakhstan has resulted in an acute need for personnel with advanced western education. This is an important contributing factor to the popularization of overseas education, particularly in the English-speaking countries.

Market information

Kazakhstan has taken part in Lisbon conference and signed a Convention of Council of Europe - UNESCO on recognition of qualifications, regarding the higher education. The fair will be an ideal opportunity and a strong bridge for Kazakh students, parents, school representatives and media partners to meet and benefit at the same time. An average annual GDP growth of over 5% over last five or six years significantly raised creditworthiness and financial capacity of the population allowing parents to educate their children in commercial universities and colleges. As prices for higher education in Kazakhstan rapidly approach Western levels many parents begin to look overseas at educational destinations for their children.

Education in Kazakhstan is universal and mandatory through the secondary level and the adult literacy rate is 99.5 percent. The Ministry of Education's Bolashak scholarship grants some 3,000 young students a year the opportunity to travel to 32 countries to attend 630 universities.

Fair Outline

There has been a growing interest in Kazakhstan for postgraduate, business, and economic programmes. Almaty traditionally is a good market for economics and business management programmes, whilst Astana attracts a different audience of students who have an interest in Law and Political programmes. Rapid economic and social development of Kazakhstan has resulted in an acute need for personnel with advanced western education. This is an important contributing factor to the popularisation of overseas education, particularly in the English-speaking countries.

This Educational Fair will provide an excellent opportunity for all participants to tap into Kazakhstan's student market and gain access to a large number of potential applicants.

INTERNATIONAL STUDENT RECRUITMENT FAIR IN SLOVENIA

25 Jan 2019 - 26 Jan 2019

Information

16,000 visitors attend the Slovenian Education and Career Fair. The education fair takes place in Slovenia in January, exactly two weeks before the national open-door day at schools, faculties, and universities across Slovenia.

Reasons to Attend

The exhibition brings together Slovenian and foreign institutions (high schools, vocational colleges, faculties and universities, language courses, lifetime learning programmes etc.) with scholarship givers and first employment officers. This way it creates a perfect opportunity for young people to find all information linked with their decisions on further education and vocational training in a single place.

Market Overview

Slovenia offers many opportunities to those looking for education at higher level. Higher education institutions are universities, faculties, art academies and professional colleges. Slovenian students also decide to gain students exchange experiences. Each year there are more Slovenian students who decide to study abroad to locations including Austria, Germany, Italy, the United Kingdom, the USA etc.

The Slovenian school system has seen a number of changes in recent years, aiming to ensure that as many people as possible realise their right to education, better than before, thus achieving a higher educational level.

Fair Outline

Differently from Slovenian open-door day, when university and secondary school students can visit a maximum of three educational programmes in a year, the Slovenian Education and Career Fair allows students to get to know practically all programmes in one or two days.

As the exhibition takes place before the national open-door day, young visitors have enough time to decide what programmes and relative three schools they should visit few weeks later and hopefully have an easier decision when turning in their school enrollment application in March.

The exhibition's second mission is also to prepare a unique one-day event in Slovenia, bringing into one single place companies, educational institutions and other organisations active in the field of business and professional education, training, counselling and publishing.

Slovenian Education and Career Fair is organised in collaboration with organisations such as High School Student

Organization of Slovenia, Student Organization of Slovenia, Institute of the Republic of Slovenia for Vocational Education and Training, Slovene Human Resources Development and Scholarship Fund and many others.

TOURISM, HOSPITALITY AND CATERING FAIR-PARIS

26 Jan 2019

Information

The Studyrama Tourism, Hotel Business and Catering Fair will take place in January 2019. This influential student fair has taken place each year for the past seven consecutive years. Students come to get information and guidance from professionals representing leading programmes and the institutions that provide them.

Reasons to Attend

The Tourism, Hotel Business and Catering Fair is a specialist fair targeting subjects specific for attracting students who are really interested in studying tourism, hotel business and catering. Exhibitors at the fair, as a result, will gain access to a very targeted group of students interested in these subjects (Some 85% of all visitors). Feedback shows that 100% of all exhibitors were satisfied or very satisfied with the fair in 2017.

Market Overview

According to the French government, about 100,000 French students go to abroad for their studies; among them 25,945 are Erasmus exchange students.

Each year, more 47,000 French students take degrees in non-native European Union countries. France has a population of 62.9 million with a per capita GDP of US \$31,096 and is the third-largest economy in Europe after Germany and the UK. French higher education has a long tradition of openness and accessibility*. The national government devotes 20 percent of its annual budget to education. Fees for both French and international students are kept very low to persuade students to stay in education as long as possible. There are about 190,000 international students, from all over the world, currently enrolled in French higher education.

Fair Outline

5,400 visitors came to the Tourism, Hotel Business and Catering Fair in 2017, of which 37% were high-school students, 19% were A-level (French "Bac") holders or had validated a first year of higher education, 20% had a Bac+2 level, 20% had a bachelor's level, and 8% were in other types of studies. 17% of the visitors came from Paris, 75 % from Ile de France and suburbs area and 8% from other parts of France.

In addition, for students, information and free consultation is available on jobs, internships and housing opportunities.

All courses and programmes in the subjects of tourism, hotel business and catering are provided at this fair: short-term courses, 2-year diplomas, HNC, hotel-business schools and other specialised schools present their opportunities. This fair aims to help students discover the numerous jobs available in connection with these

specialist sectors and the courses that lead to them.

The Tourism, Hotel Business and Catering Official Guide is distributed for free to the visitors at the entrance of the fair and a bookshop is on site, selling books of guidance in connection with the subject of the fair.

France is attractive for student recruitment because of the high number of students prepared to study abroad. French students want to improve their language skills and other skills and finally optimize their integration in the professional world thanks to foreign study programmes. French students and employees of companies consider studying abroad provides a big advantage for a successful professional career. When students want to pursue a professional career abroad, studies in a foreign country is the best way to integrate into that country at first.
