According to a recent survey, education investment has become the favourite choice of many Russian parents. Students and parents alike are looking forward to finding out about opportunities to study abroad, making this event essential both for visitors and recruiters. International experts forecast that by 2020 Russia may enter the top-5 list of leading "demand states" in the world educational market, and the amount paid for education by the Russian students will triple.

The Mauritius International Education Fair is amongst the largest education fairs in Mauritius. It is also one of the oldest education fairs in the country and has been attracting a number of Universities from across the world. The fair is strategically held as soon as the HSC examinations have concluded and students are looking out for options around the world. Our last event had participants from countries around the world including the UK, France, Switzerland, Canada, Malaysia, India, China, Hungary and Cyprus.

Reasons to Attend

The fair is marketed extensively and the number of participants has steadily increased every year. Last year, we have over 53 institutions that took part in the fair. The fair has been held annually since 2003. Mauritius is a country where a significant number of students go abroad to study each year. The fair provides an ideal platform

for recruiters to meet and interact with interested students

Market Overview

Despite being one of Africa's most developed countries, Mauritius still has only a few institutions where students can pursue higher education. As a result, most Mauritian students look as pursuing their educational dreams abroad. There are about 5000 Mauritian students who go abroad to study each year.

Mauritius is an island nation of 1.2 millions inhabitants in the Indian Ocean. Mauritius has a multicultural society in which the cultures blend and mix harmoniously. The population is made up of people of Indian, African, Chinese and French origin.

Fair Outline

This International Education Fair in Mauritius is held at the Hennessy Park Hotel in the city of Ebene. Due to its excellent location and easy accessibility the hotel is able to attract many visitors for the fair.

The Mauritius exhibition is committed to forming value-centred future leaders through education that is entrepreneurial inspirit, ethical in focus, and global in orientation.

The fair is well advertised in the local media including press, radio and television. In addition posters and banners are put up all over the island. Personal visits are made by representatives to various schools and higher education establishments to promote the Fair.

The last fair was inaugurated by the Minister of Tertiary Education and the earlier one by the President of the Republic.

Days of International Education Hungary

Information

Many education providers have already understood the great possibilities of the Hungarian market for successful student recruitment. This is the market where a certain “gap” has been formed in the area of study abroad offers.

The main aims of the fair are to increase the awareness of study abroad opportunities, promotion of the fair’s participants and their programmes & services, and recruit new students. Participants of the fair will represent a variety of study abroad opportunities.

Market Overview

The total number of students in the higher education system was over 380,000 during the 2020/2021 academic year. Hungary has 70 operating higher education institutions. Hungarian institutions of higher education have started the transformation toward the regulations of the Bologna system. In the new system, both colleges and universities may launch bachelor, master, and Ph.D. programs provided that the necessary requirements are fulfilled. This also means that all awarded degrees are equivalent and transferrable throughout the EU and many other countries.

Fair Outline

The importance of the education fair in Hungary for the students, the parents, and the educational decision-makers is given by the fact that it makes them possible to get all the necessary information at the same time, the same place: the students taking an entrance examination in the near future can inquire about the chances and the opportunities to take the entrance exam, while the decision-makers can inquire about the available tenders and the school equipment supply.
