We make sure that you will meet **top students** in Africa and also enjoy yourself through a pack of various activities including a **group safari and sightseeing**.

Reasons to Attend

- Excellent proven recruitment conversion rate at the fair and after
- Good ratio of return clients
- Carefully planned and executed promotion
- Exciting socializing activities and cultural tours
- Meeting new friends and long-term partners

The exhibition will bring together students and international education providers with the focus on recruiting students for foundation, undergraduate and postgraduate levels.

Higher education has recorded strong growth in East Africa in recent years due to increased demand. The use of websites, subscribing to academic journals, use of intranet, social media and other e-learning tools have revolutionised the academic sector in East Africa.

Market Overview

Altogether, there are about 100 universities in East Africa, both public and private, with Kenya hosting the highest number, 40.

With local Kenyan universities not being able to offer enough places for students, more students are looking into opportunities to study overseas as they also wish to improve their career prospects in the labour market after graduation.

According to University World News, 57% of 1,044 Kenyan students polled in the recent survey said that they would prefer to study in a foreign university than a local one. The number of Kenyans issued with student visas has been on the rise in recent years according to government statistics.

An increase in Kenyan schools offering A-Levels and International Baccalaureate naturally increased the number of students willing to study abroad. Those ones who obtained the Kenya Certificate of Secondary Education (KCSE) can still apply to foreign universities but most of such students choose to go for Access Courses abroad.

In the past decade Tanzania's public universities have witnessed rapid growth in enrolment. There are nearly 30 public and private universities in Tanzania. Demand for higher education is large with an estimated student population of 15,000.

According to a recent report from the Tanzania Education Sector Analysis, emphasis has been put on higher education, to adequately meet the growing demand from secondary school leavers and produce skills relevant to current and future economic growth. University enrolment has grown at an average annual rate of 30% over 2005-09.

Fair Outline

Main areas are undergraduate courses and postgraduate courses with a visible increase in interest for professional qualifications. Many foreign universities attract Kenyan students for access and foundation courses in marketing, business, management and IT.

The main subject areas are: business and finance, medicine and related sciences, IT, engineering, hotel management, humanities, law, science, MBA, and distant learning.

This year, ISFA are also donating to the [Mara Meru Cheetah](#) project, if you would like to donate 5 Euros from your booking towards the charity, please mention this in the comments section of your invoice.

Student Fairs in Sweden - Winter 2026

25 Nov 2026 - 02 Dec 2026

Information

Over 30,000 people visited the student fairs in the last edition.

Reasons to Attend

The Student Fairs in Sweden, last edition, were visited by over 5,000 attendees in Malmö and over 22,400 in

Stockholm. The education fairs are Sweden's largest vocational and education fairs for students looking to choose an education after high school.

Over 27,000 students in their final year of high school come to seek inspiration and answers to support their choice of further education. That is one-third of the total population of final year students of high school in Sweden. 80% of the fair visitors come in groups organised by the schools' study guidance counsellors.

Market Overview

The UK and the US are popular destinations for many Swedish students, followed by Denmark, Australia, Spain, France and Poland. Asia is appealing to more and more students. Roughly 2,300 students studied in Asia in the 09/10 academic year – twice as many recorded for the previous five academic years.

Swedes have excellent knowledge of foreign languages. Another reason for the large number of Swedes choosing to study abroad is their knowledge of foreign languages. Many want to study at the university level there is also interest in shorter vocational courses and for work experience.

Sweden has three universities in the top 100 and eleven in the top 500 of the 2010 edition of the Academic Ranking of World Universities compiled by Shanghai Jiao Tong University.

Fair Outline

The Student Fairs in Sweden is the largest meeting place for professional and educational choices after high school. Fairs in Stockholm are attended by high school pupils (mainly grade 3) from all over central Sweden and fairs in Malmö primarily by students from Skåne.

A lot of effort goes into preparation tasks and tools for visitors at the fairs, as we know from experience how important this is for the output. Apart from the study abroad exhibitors there are Swedish universities and other types of higher education, future employers and various study-related organisations. The fair organiser participates with its professional associations offering advice and information concerning most academic professions and their employment market.

The fair's study abroad section averages has around 50 exhibitors of which a large part consists of agents. We welcome more representatives from universities, colleges and language schools as visitors prefer to meet "real" representatives from the countries and schools they are looking at.

The Student Fairs in Sweden have a study guidance stand with a large number of study guidance counsellors providing counselling. We recommend that you pay them a visit during your participation.

We also have an extensive workshop programme for the visitors with hundred 20 minute workshops about various topics, such as studying abroad, the labour market for academics, various types of education and ways of planning your choice of career and education.

Swedish students have the right to apply for financial aid for studies in another country. A condition is that overseas education has been recognised by Högskoleverket (Swedish National Agency for Higher Education). They are present at the exhibition and will assist in questions concerning the recognition of overseas education.

Exhibitors include universities and colleges, polytechnic education, employers and organizations, and representatives of international studies.
